

Foundation Academy

15304 TILDEN RD, WINTER GARDEN, FL 34787 | 407-877-2744
 FOUNDATIONACADEMY.NET

With a solid 60 years of history, Foundation Academy provides a family-centered environment, an expert approach to education, and a Christian focus to our preschool through 12th-grade students in the greater Orlando area. An FA education builds a strong foundation for life—from the inside out.

Our college preparatory curriculum is fully accredited and includes STEAM—science, technology, engineering, arts, and mathematics. Through this approach, teachers can incorporate the latest technology to enhance lessons. Honors classes begin in elementary school, and options expand in high school to include a wide selection of Advanced Placement and on-campus Dual Enrollment courses. For the last 8 years, our graduates have achieved 100% college placement and earned over \$17 million in scholarships and have up to two years of college credits under their belt.

Outside the classroom, athletics are offered beginning in kindergarten. Our high school

athletes compete as part of the FHSAA and many continue at the collegiate level with athletic scholarships.

Our fine arts program offers some of the area's top artistic talent, including classically trained artists that have worked for major studios. Arts begin in preschool and continue through high school, including band, choir, theater, visual art, and digital design.

With three campuses in Winter Garden and Windermere, our growth continues as we celebrate over 60 years in education! We are planning the construction of a new fine arts center and additional classroom space. "It's an exciting time to be a part of the Foundation Academy family," said David Buckles, our School President. And it truly is. Come join the Foundation Family as we partner with you in building a spiritually focused and academically competitive foundation for your child!

EST. 1958
FOUNDATION ACADEMY
Building a Foundation for Life

In 1958 our intention was to treat and teach each child as a unique creation in Christ, and partner with parents and the church to build a foundation for life, over 60 years later that still remains true.
